Primula Obconica "Dondo"

## NEW PRIMULA OBCONICA "DONDO"

This new large flowering variety is in our opinion the finest dark red Obconica. Astonishing freedom of bloom—10 to 12 stems of exceptionally large dark velvety red flowers are in bloom at the same time. Very valuable in winter as "Dondo" holds its true deep red color. Absolutely even in color, freedom of bloom and form of plant.

Tr. Pkt. (Originator's) \$1.00

## PRIMULA OBCONICA "ZUKUNFT"

Introduced by us several years ago. Large flowers of a deep dark red color. Plants grow compact, and the mass of flower heads on strong stems, show evenly above the dark green foliage. A very fine variety.

500 Seeds, \$1.00; 1/128 oz., \$1.50

1/64 oz., \$2.75; 1/32 oz., \$5.00

**NEW VIOLACEA.** Flowers are of a clear violet-blue color. Originator's ¼ gramm packets (approx., 1200 seeds), \$2.00; 500 Seeds, \$1.00.

If the customer does not accept the goods on these terms, they must be returned at once, and the money will be refunded or proper credit given.

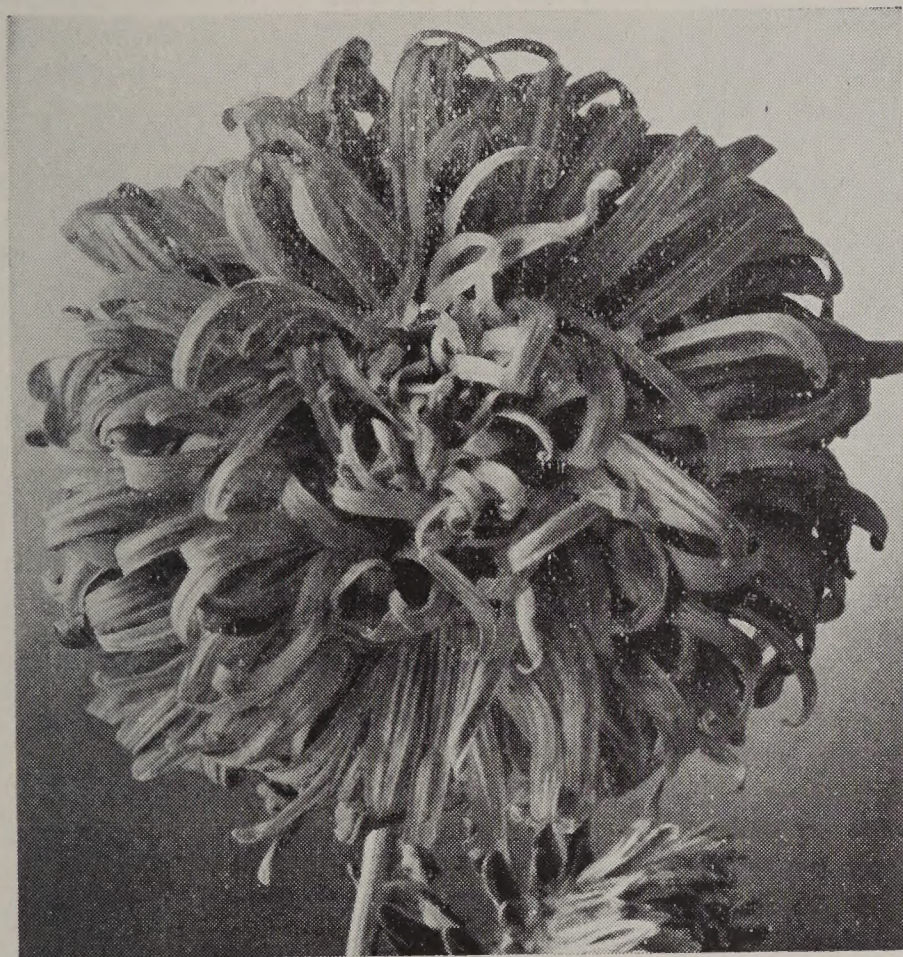

## NOVELTIES and SPECIALTIES for 1940

### AGERATUM "MIDGET BLUE"

Awarded Silver Medal, All-America Council

A very fine dwarf (2-3 inches high) Ageratum with delicate fine foliage, which is practically smothered with small true Ageratum Blue flowers. Really the first Ageratum that will come uniformly dwarf and true to color from seed. **Ageratum Midget Blue** was awarded a **Silver Medal** in last year's **All-America Trials**, but due to insufficient seed being available the introduction was withheld until this season.

Tr. Pkt., 50c

### ASTER EARLY GIANT WILT RESISTANT

The finest large flowered, heavy stemmed wilt resistant Aster yet developed. Flowers are of the large Giants of California type, while the plants are less tall, about 1½ ft. in height, with strong, heavy stems. This class is early blooming, coming into flower four to six weeks earlier than the Giants of California, that is, during early to mid-August.

**Light Blue.** (Silver Medal, All-America Selection)

**Peach Blossom.** Opens white, flushes lavender pink.

Tr. Pkt., (each) 50c

### TWO OUTSTANDING NEW BEGONIAS

"RED PEARL" and "ROSE PEARL"

Truly pearls in the dwarf class of Begonias. Grow about 6 to 7 inches high with small bronze foliage. Of unusual compact growth and such rich-branching habit that the profusion of blooms gives the appearance of an immense umbel of flowers. For beds, borders and especially valuable for pots, both for Mothers' Day and **Winter-flowering**. Resulting from a cross by one of the leading Begonia specialists in Germany, only this originator's seed can be depended upon to come true.

Tr. Pkt., \$1.00; 3 for \$2.50

5 for \$3.75

## NOVELTIES and SPECIALTIES for 1940

### CYNOGLOSSUM AMABILE COMPACTUM "FIRMAMENT"

(Awarded Bronze Medal by  
"All America" Council)

This is a welcome new dwarf type of Chinese forget-me-not, selected from a mutation out of *C. amabile* Fairy Blue. Trial reports show it is true and uniform stock. Fifteen to eighteen inches tall and bushy, and of rich blue color, always in garden demand. It should prove the most popular of all cynoglossums. Its growth allows it to be planted with the pink variety, which likewise does not grow so weedy or rank as *C. amabile*. It is about the easiest thing to grow among flowers and should prove a garden favorite. It can also be used as cut flower material.

Tr. Pkt., 30c; ¼ oz., 75c; 1 oz., \$2.25

### CHRYSANTHEMUM

**Korean Hybrids.** These beautiful, hardy Korean Hybrid Chrysanthemums form compact bushes, virtually covered with flowers. Magnificent colors. Single and semi-double types. Unexcelled for cutting. Sown in spring they will bloom in fall.

Tr. Pkt., 75c; ¼ oz., \$2.00

### CHRYSANTHEMUM

**Cascade or Balcony.** Produces large clusters of single flowers in shades of pink, rose, yellow and white. A desirable pot plant; also suitable for hanging baskets and window boxes.

Tr. Pkt., 50c; ¼ oz., \$1.50

### HOLLYHOCK ANNUAL "INDIAN SPRING"

Awarded Silver Medal, All-America Council

"Indian Spring" blooms in less than five months after seed is sown. A profuse bloomer. After the first bloom is past, if the plants are cut back they will produce a second crop of blooms the same season. Flowers are of attractive bright rose and rosy carmine shades. Normally 3½ to 4 feet tall, plants may grow as high as 6 feet in some sections.

Tr. Pkt., 35c; ¼ oz., \$1.00; 1 oz., \$3.50

## NOVELTIES and SPECIALTIES for 1940

### LUPINUS POLYPHYLLUS "EVENING GLOW" (Benary)

#### Introducer's Description

During the many years I have been selecting these Lupins, my aim has been to fix the most desirable yellows and reds and to combine them harmoniously, in order to produce a colour effect comparable to that of the sky at sunset. These Evening Glow Lupins contain numerous different shades of light and golden yellow, chamois, apricot, pink and deep red. They will find especial favour with amateurs, who desire beautiful colour effects and will become the first choice of many. (Perennial)

1/4 oz., 65c; 1 oz., \$2.40

### RUSSELL LUPINS (Perennial)

**New Miracle Flowers.** Awarded the coveted Gold Medal at the Cheltenham Flower Show of the Royal Horticultural Society in June 1937. Prize Mixture.

Tr. Pkt., 50c; 1/4 oz., \$1.50;  
1 oz., \$5.00

### MARIGOLD "HARMONY TYPES" (Scabious-Flowered)

Harmony Tall Single Ferdinand

For several years the Scabious Flowered Dwarf French Marigold "Harmony" has been one of the most popular all-around garden plants. To the original Harmony, which was introduced some years ago, came "Golden Harmony" last season. This year two more new varieties are offered in this popular group.

**Harmony.** Deep orange center with maroon collar.

Tr. Pkt., 15c; 1 oz., 75c; 4 oz., \$2.50

**Golden Harmony.** A luminous golden yellow—both the quilled center and the guard petals hold to the same bright color.

Tr. Pkt., 25c; 1/4 oz., 40c; 1 oz., \$1.25

**Harmony Hybrids.** An excellent new strain embodying all the fine features of Harmony combined with a wide and varied color range. One of the outstanding introductions of the season.

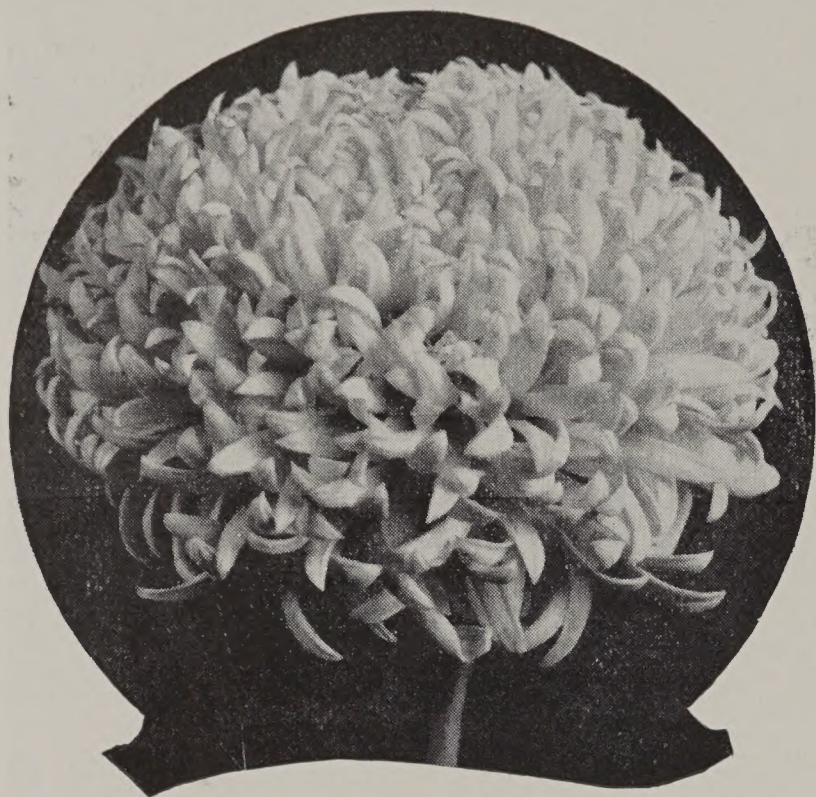

Tr. Pkt., 50c

**Tall Single Ferdinand.** One of the gayest of our new flowers. Plants are tall growing, 20 to 24 inches. A fine new cut flower subject as well as an attractive and showy garden plant. Blooms within 3 months after the seed is sown, and does not have the strong Marigold odor.

Tr. Pkt., 50c

## NOVELTIES and SPECIALTIES for 1940

Marigold Early Dixie Sunrise

### MARIGOLD EARLY DIXIE SUNRISE

(Award of Merit by "All America" Council)

Some years ago the Land of Dixie gave us Marigold Dixie Sunshine, a very desirable but unfortunately late blooming variety. Now, far from the Land of Dixie, from Canada in the North, the land of the rising sun, comes Marigold Sunrise, an early blooming form of Dixie Sunshine. The flowers are large and ball-shaped, ingeniously composed of dozens of tiny five-petaled florets, gracefully interlocking, daintily fringed in effect. The color is brilliant golden yellow, a ray of dazzling pure beauty. Of particular interest is the fact that Sunrise comes 100% fully double and blooming commences by August 15, assuring its adaptability to any locality. The plants are tall, bushy, heavily covered with the colorful blooms and remain in flower over a long period.

Tr. Pkt., 30c; ¼ oz., 50c; 1 oz., \$1.75

### PANSY "DON'S WINTER FLOWERING"

Strictly a greenhouse or forcing Pansy. The plants are sturdy, growing erect, producing in the greenhouse large blooms on extra strong stems from 10-14 inches long. Will get up 3 ft. and should be supported accordingly.

Tr. Pkt., \$1.00; ½ Tr. Pkt., 60c; ⅓ oz., \$2.00

### PHLOX GIGANTEA SALMON GLORY

Silver Medal, All-America Council

The individual florets of "Salmon Glory" are gigantic for Phlox, measuring with ordinary field culture from 1¼ to 1½ inches in diameter. The color is a pure salmon pink with a distinct creamy-white eye. One of the outstanding novelties of the year, if not the best.

Tr. Pkt., 50c; ⅓ oz., \$1.25; ¼ oz., \$2.25

**PRIMULA CHINENSIS Double Dazzler.** With the introduction of this double form in the same dazzling orange scarlet shade as that of the single form which was introduced some 2 or 3 years ago, the wealth of material for pot plant users has again been enriched. The flowers are carried well above the attractive foliage and are very freely produced. The doubling of the petals intensifies the color and adds to the beauty of the plant.

Tr. Pkt., \$1.00

### PRIMULA SINENSIS FIMBRIATA "OLYMPIA HYBRIDS" (Benary) (Introducer's Description)

These giant Chinese Primulas are the result of crossing my Nobilis hybrids with the excellent "Light Pink Giant". Their circular, well-fringed, substantial flowers measure mostly 2½ ins. across; they combine to form enormous umbels which, borne on strong stems, stand erect above the foliage. Olympia hybrids contain the following colours: white with mauve zone, indian red, mauve pink, light and salmon pink, copper and deep red, light and dark purple. This rich mixture produces striking and excellent market plants.

## NOVELTIES and SPECIALTIES for 1940

Ladybird

### PETUNIA "LADYBIRD"

This **New Single dwarf** variety with its splendid color effect secured a **Special Mention** in the **All-America Selections for 1938**. During the past summer it has proved its exceptionally fine quality as a pot and bedding variety. The flowers are bright carmine, overlaid with scarlet, creating a color effect of unusual brilliancy.

Originator's Trade Packets, 75c

### PETUNIA "GLOW"

(The Silver Medal Petunia)

Another **New dwarf**, compact variety. Very intense glowing carmine-rose. Extra attractive. Very free-flowering. A wonderful variety for garden and commercial uses.

Tr. Pkt., 75c; 1/32 oz., \$2.50

### PETUNIA "ADMIRAL"

Most attractive dwarf blue bedding Petunia. It might be classed as a small Grandiflora, but its free flowering, quite dwarf habit places it closer to the Dwarf Hybridas. An exceptionally fine variety for pots and bedding work. Our supply of Admiral is exclusively from the German Originator.

Tr. Pkt., 50c; 1/32 oz., \$1.50; 1/16 oz., \$2.75

### PETUNIA "HOLLYWOOD STAR"

Silver Medal, All-America Council

This lovely new Petunia Hybrid is a charming shade of rich rose with an amber throat. It is unique in the form of its flower which consists of a five pointed star. A very fine garden variety, early and free blooming and the strong vigorous plant is so smothered with blooms that hardly any foliage shows.

Tr. Pkt., 50c; 1/8 oz., \$1.25

### PETUNIA "VELVET BALL"

Bronze Medal, All-America Council

Velvet Ball is the last word in compactness, dwarfness and free flowering habit, reaching a height of about 8 inches with a spread of only 8-10 inches. There will be a dozen or more flowers in bloom at a time, each flower being about 2½ inches in diameter, well shaped and of a deep luscious shade of velvety blood red. The variety comes remarkably true, and for pot plants, or as a border or edging plant, "Velvet Ball" has few equals.

Tr. Pkt., 50c; 1/32 oz., \$1.25; 1/16 oz., \$2.25

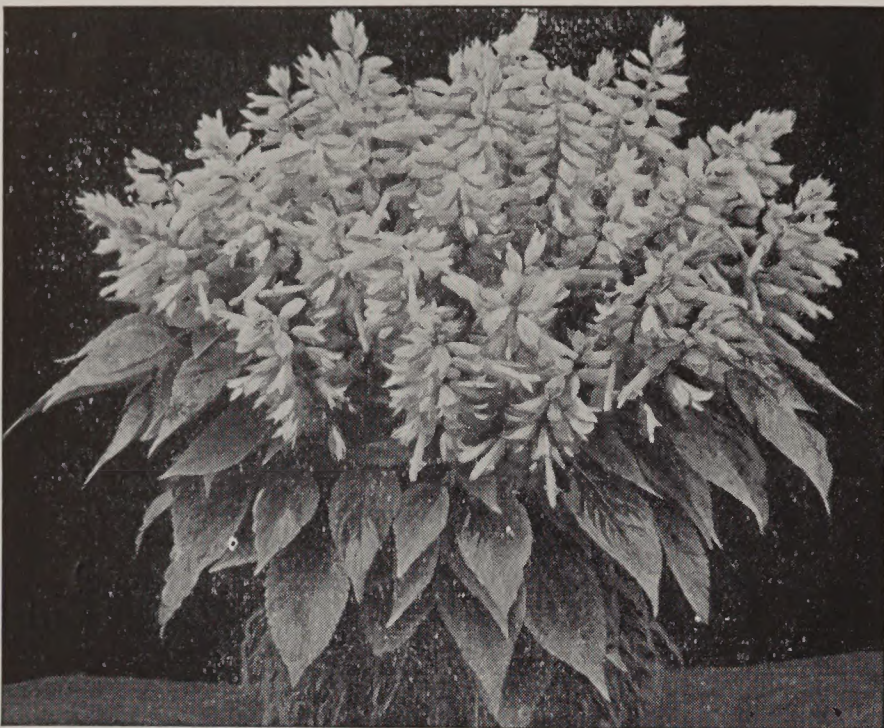

Petunia "Velvet Ball"

**PETUNIA GIANTS OF CALIFORNIA "Bodger's Supreme Florist Strain."** This new mixture consists of a color range comprising the **lighter rose** and **pink shades**. Very large ruffled, shallow open throated flowers, which are freely produced on strong growing plants. It is an excellent bedding variety as well as a fine window box type.

Tr. Pkt., \$1.00; 1/64 oz., \$2.50

## NOVELTIES and SPECIALTIES for 1940

St. John's Fire

### SALVIA SPLENDENS

**St. John's Fire.** The earliest and dwarfest Salvia in existence. Plants grow only 10 in. tall, are very thickly and strongly ramified, so that the compact bushes reach a diameter of up to 18 in. Habit and height of all plants are entirely uniform, forming in a mass an even, dazzling, scarlet carpet.

Tr. Pkt., \$1.00;  $\frac{1}{8}$  oz., \$2.50

**Blaze of Fire.** Another very early and dwarf new Salvia. Plants form compact bushes and grow to a height of 12 in.

Tr. Pkt., 75c;  $\frac{1}{8}$  oz., \$1.50;  $\frac{1}{4}$  oz., \$2.75

Both varieties are highly recommended for early Pot Plant work.

### STRAWBERRY BARON SOLEMACHER

#### A Good Mother's Day Item

The product of a European specialist. Plant seed in pots from January to April, keeping evenly moist and shaded. Will produce red fruit freely the first summer and continue bearing right into autumn.

Tr. Pkt., 50c;  $\frac{1}{16}$  oz., \$1.00

Baron Solemacher, Yellow Fruited — Tr. Pkt., 50c;  $\frac{1}{16}$  oz., \$1.00

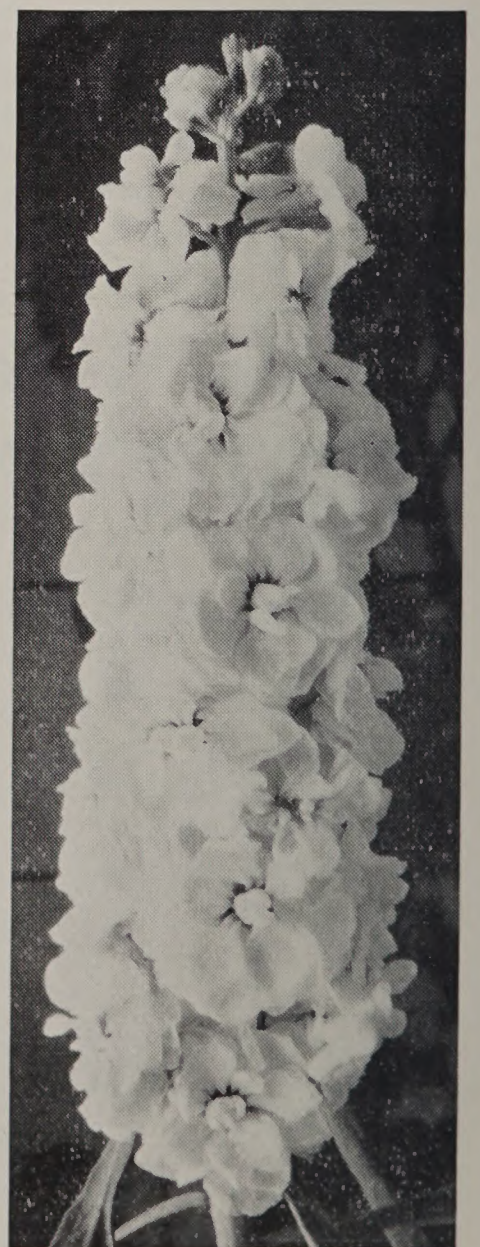

### NEW DOUBLE WHITE COLUMN STOCK

#### "GARDENIA"

As lovely and elegant as the exotic Gardenia from which it borrows its name, this new Stock is a great achievement of the plant breeder's efforts. With superbly formed, magnificent spikes composed of individual florets 2 in. to  $2\frac{1}{4}$  in. in diameter, this remarkably new Giant Column Stock is indeed the last word in perfection for its class. Shimmering, glistening white, the flowers are the purest snow white of any Stock variety yet introduced. Producing only one flower spike to a plant, this spike will however be of enormous size, 12 to 15 in. of florets and nearly 3 feet in length, and 4 in. or even  $4\frac{1}{2}$  in. in depth, with the individual florets closely and compactly placed on the stem. The robust habit and uniformity of type combined with a high percentage of doubles places Gardenia definitely in a class by itself with no peer among the finer flowers for the high class florist trade.

Tr. Pkt., \$1.25; ( $\frac{1}{2}$  Tr. Pkt., 75c);  $\frac{1}{8}$  oz., \$2.25;  $\frac{1}{4}$  oz., \$4.00

$\frac{1}{2}$  oz., \$7.00

## NOVELTIES and SPECIALTIES for 1940

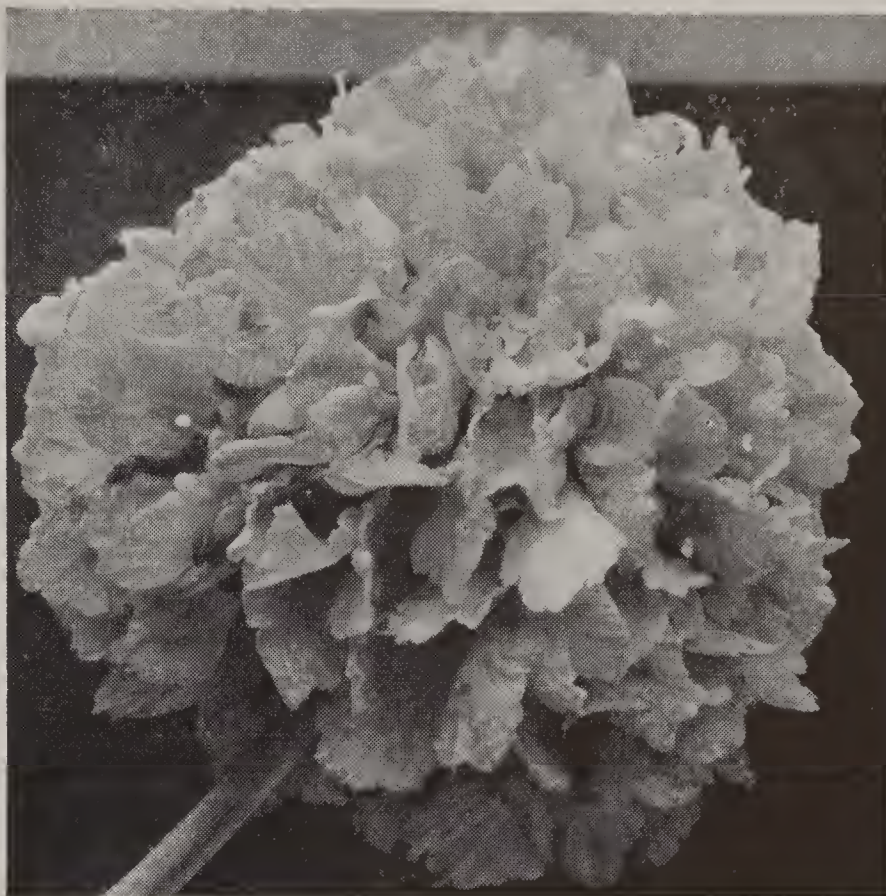

### SCABIOSA IMPERIAL GIANTS

#### "Blue Moon"

Honorable Mention, All-America Council

The flower form of this new Scabiosa is as different from the existent Scabiosa varieties as Dahlia Flowered Zinnia differs from the old Zinnia types. This new type has flowers composed entirely of broad, heavy, wavy petals, eliminating the pincushion center entirely. In other words, the flower is literally fully double. **Blue Moon** is an ideal cutting type, because of the stem length, fully 27" even when field grown, and especially because the large beautifully shaped flowers are a luscious shade of deep lavender blue so hard to find in annual flowers.

Tr. Pkt., 35c; 1/4 oz., 85c; 1 oz., \$3.00

Scabiosa Imperial Giant Blue Moon

### VERBENA BONARIENSIS

A long-stemmed Verbena with lavender-blue flower clusters. Grows about 3 feet high. This new type is ideally suited for cut flower work. Flowers last well when cut. If sown February/March the plants will be in bloom continuously from mid-July to frost. A very decorative garden plant.

Tr. Pkt., 35c; 1/4 oz., 85c; 1 oz., \$3.00

Zinnia Super Crown O'Gold

### ZINNIA SUPER CROWN O'GOLD

#### "PASTEL TINTS" (Bodger)

"Pastel Tints" contains a wide range of pastel shades, including soft yellow, old gold, light pink, apricot pink, various shades of salmon, peach and buff, as well as pure white and cream. Flowers are of the Crown o'Gold type, each petal of the flower is overlaid at the base with deep golden yellow, while carrying out the individual flower color at the tip. For cutting it is unexcelled and for garden use it is very hard to surpass. The plants are strong, growing about 3 feet tall, and flowers are borne profusely throughout the season, first appearing about 60 days after seed is sown.

Tr. Pkt., 25c; 1/4 oz., 60c; 1 oz., \$2.00

### ZINNIA EARLY WONDER

A new race of dwarf, early flowering Zinnias, produces masses of Pumila type flowers on long nearly leafless stems. **Mixed colors.**

## BEGONIAS

**NOTE:** Many leading Begonias are the result of crosses, and if their seed is harvested and grown by others, the seed of the second generation segregates and produces worthless mixtures. Therefore, our seed comes direct from only the most renowned Specialists (Originators wherever possible) and can be depended upon to produce plants true to name and which will show a marvelous uniformity in growth.

**Begonia Carmen**

### NEW BEGONIA "RED and ROSE PEARL" (See Novelty Page 1)

**Carmen Rose. Carmen Red.** Dwarf, bushy growers, with deep dark brown foliage. All are exceptionally free flowering and make beautiful showy pot plants.

Tr. Pkt., 75c; 1/64 oz., \$1.75;  
1/32 oz., \$3.25

**DARLING (Liebling).** Very large flowers of a pretty, brilliant rose color. Grows 6 to 7 inches high; free branching habit. One of the best winter-flowering (Semperflorens) Begonias. An excellent all year 'round pot plant, especially for sales from Christmas to Mothers' Day. And, because of this early-flowering habit, is invaluable for outside plantings in spring. Originator's true seed.

Tr. Pkt., \$1.00; 3 for \$2.50

**LUMINOSA COMPACTA.** Grows about 5-in. and produces masses of glowing red blossoms on thin stems. A profuse bloomer, so prolific that the flowers practically hide the small dark-brown leaves. Extraordinarily effective.

Tr. Pkt., \$1.00; 1/64 oz., \$3.00; 1/32 oz., \$5.50

**Enchantress.** Flesh rose color, better than Prima Donna.

**Fire Sea.** Dark red flowers with reddish green foliage. An old favorite.

**Glow.** Large flowering dark red with bronze foliage. Excellent pot plant.

**Prima Donna.** (Schmid's) The best pink gracilis with beautiful large flowers.

**Rosabella.** Delicate rose, extra dwarf. Perfect substitute for Lorraine Begonias.

**Zauberin.** Brilliant pink, 2-in. blooms, attains height of 6 in., fine pot plant.

Tr. Pkt., 75c; 1/64 oz., \$2.00; 1/32 oz., \$3.50

**Glory of Erfurt.** Large bright carmine flowers.

**Indian Maid.** Deep metallic bronze foliage; rich scarlet flowers.

**Lightning.** Deep red, dark green foliage edged light brown, grows 9 in. high.

BEGONIA MULTIFLORA FL. PL. "Mrs. Helen Harms" (Benary)

"Mrs. Helen Harms," the richly flowering, sunproof, yellow bedding plant, takes a prominent place amongst the double multiflora Begonias.

"Mrs. Helen Harms"

We are in position today to offer seeds from "Helen Harms" which produce 90% to 95% double-flowering plants. The flowers, about 1½ inches in diameter, are the same deep canary yellow as those grown from cuttings; the foliage has likewise remained small, narrow and oblong.

Tr. Pkt., \$1.00

BEGONIA MULTIFLORA FL. PL. "Coppery Gold" (Benary)

The leaves, like those of Helen Harms, are small, narrow and longish; the rounded flowers are somewhat larger and better filled. Many flowers are like tiny roses, which are nominally very effective when opening. The combination of colors is wonderful: the foundation of old gold or golden yellow merges into copper red or coppery salmon and is usually tinged with carmine. The seedlings produce about 80% doubles; they bloom profusely and uninterruptedly from July onwards until the frost comes.

Tr. Pkt., \$1.00

BEGONIA MULTIFLORA FL. PL. NANA "MIXTURE" (Benary)

Plants raised from seed of this new "Benary" Mixture of Multiflora Fl. Pl. Nana Begonia are of a dwarf, bushy habit and very floriferous.

CHRYSANTHEMUM

Annual Chrysanthemums are some of the most profitable annuals, being also modest in their requirements and easy to grow They bloom continuously.

Chrysanthemum Segetum "Zebra" is the first definite two-colored variety in the Chrysanthemum segetum class. The tips of the petals of these medium-sized blooms, 2 inches across, are mahogany red, encircling brilliant yellow. A gay combination of colors, peculiarly attractive. The color contrast is considerably increased by means of a dark disc. Chrysanthemum Segetum "Zebra" is particularly suitable for borders and edgings on account of its dwarf and spreading growth and it is valuable as a lasting flower for cutting purposes.

CUPHEA

**CUPHEA Firefly.** Firefly has all the characteristics needed in a dwarf, compact plant. The flowers are delicately formed, fiery cerise red in color, and are freely produced. The general effect when in full bloom is a ball of fire. This subject recommends itself for the rockery window boxes and flower pots or as a border or edging plant. It is a tender annual, flowering readily in twelve to fourteen weeks from seeds, and blooms profusely throughout the summer months.

Tr. Pkt., 50c; 1/8 oz., \$1.00

DAHLIA

**Unwin's Dwarf Hybrids.** This wonderful Dahlia, easily grown from seed, is becoming more popular each year. Make splendid pot plants, and invaluable for exceptionally showy displays in borders and beds. Bloom in 4 months from sowing, and produce numerous, graceful, semi-double flowers in a wide range of colors.

# MARIGOLD

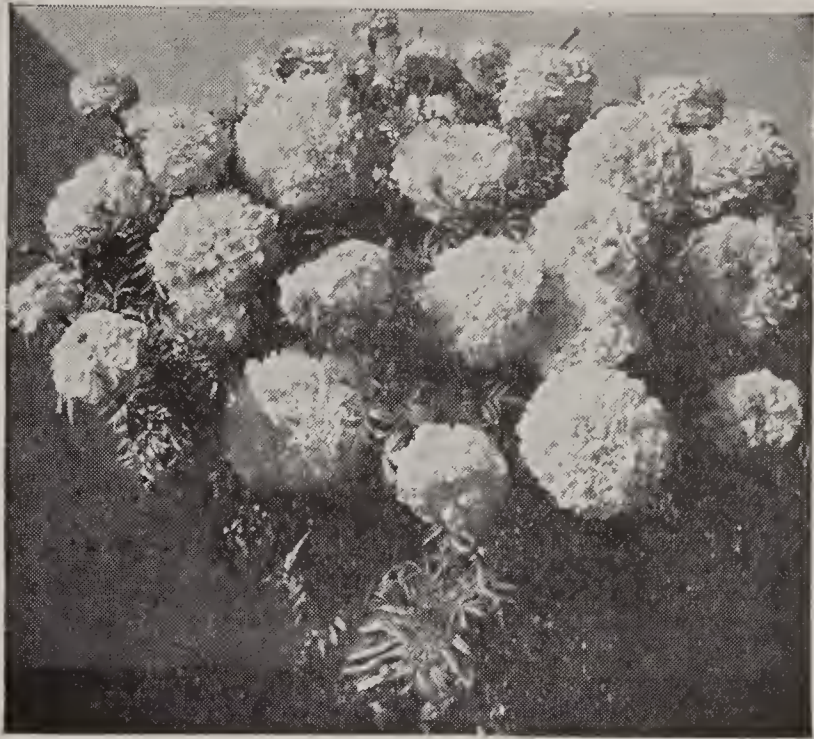

## Gigantea Sunset Giants

Largest flowering Marigold ever known. Blooms average 5 inches and some get much larger. And, the most distinctive characteristic is a definite sweet fragrance, instead of the usual Marigold odor. The plant is extremely strong growing, with six to eight heavy branches, each bearing three to six large flowers. Gigantea Sunset Giants is a mixture ranging from deep orange through golden orange, deep golden yellow, light yellow, lemon yellow and a delightful new shade of primrose. The strain comes from 60 to 65 per cent double.

Tr. Pkt., 30c; ¼ oz., 50c; 1 oz., \$1.50

PETUNIAS (Continued)

LARGE FLOWERED FRINGED

"Golden Jubilee"

Introduced by Ernst Benary, Erfurt, Germany. This glorious Petunia is a sport from the variety "Miranda". Both have the finely fringed and delicately crinkled petals of bright rose carmine tinged with scarlet.

**Golden Jubilee** however, has a golden throat with light bronze colored markings. This golden yellow center gives the flower a gay and festive character, comparable to the golden trimming on a state robe. Every plant produces numerous blooms measuring about 3½" in diameter. Of compact growth, could be called a **Dwarf Theodosia**.

Tr. Pkt., 15c; ¼ oz., 25c; 1 oz., 75c

## GAILLARDIA FLOWERED ZINNIA (Navajo)

Flowers resemble a Picta Double Gaillardia, in both form and colorings. The colors range through the mellow tones of rose, pink, bronze, yellow, orange, lavender and combinations of these colors. Most of the flowers, in fact, are two toned, with a ring of deeper color toward the center of the flower. Fine for cutting.

Tr. Pkt., 20c; ¼ oz., 35c; 1 oz., \$1.00

## HAAGEANA DOUBLE (Mexican Hybrids)

The small flowered Mexican Zinnias have a charm all their own. The smaller flowers lend themselves to bedding and make a brilliant display and yet have stems long enough to make fine bouquets for small vases and bowls. The mixture contains many attractive colors and color combinations.

Tr. Pkt., 20c; ¼ oz., 30c; 1 oz., \$1.00

## ZINNIA LINEARIS

The most unusual and interesting of the newer Zinnias is this little dwarf variety. The flowers, which are single, are a lovely shade of golden orange, with a delicate lemon yellow stripe through each petal. It is extremely early blooming, the plants reach a height of 8 to 10 inches. Especially valuable for border or edging use or in any part of the garden where a dwarf growing plant with brilliant coloring is desired.

Tr. Pkt., 25c; ¼ oz., 50c; 1 oz., \$1.75

## ZINNIA LILLIPUT TOM THUMB

Compact plants, grow 4 to 6 inches, covered with well formed flowers of the Lilliput type. Colors range through the red, orange, yellow, pink, rose and other pastel shades. Excellent mixture for pot plant and border use.

Tr. Pkt., 25c; ¼ oz., 40c; 1 oz., \$1.25
